# ANNUAL LISTING OF FEDERALLY OBLIGATED PROJECTS WITHIN THE FAIRBANKS METROPOLITAN AREA TRANSPORTATION SYSTEM (FMATS) FEDERAL FISCAL YEAR 2011

---

## INTRODUCTION

On August 10, 2005, President Bush signed into law the Safe, Accountable, Flexible, Efficient, Transportation Equity Act, A Legacy for Users (SAFETEA-LU). One of the requirements of SAFETEA-LU is that government spending on transportation becomes more transparent to State and Local Officials, as well as the public. As part of this SAFETEA-LU Legislation, the act requires “...an Annual Listing of projects, including investments in pedestrian walkways and bicycle transportation facilities, for which Federal Funds have been obligated in the preceding year shall be published or otherwise made available by the cooperative effort of the State, transit operator, and metropolitan planning organization for public review. The listing shall be consistent with the funding categories identified in each metropolitan transportation improvement program (TIP).”<sup>1</sup>

SAFETEA-LU, like its predecessor legislation TEA-21, requires the metropolitan planning organization (MPO), State and public transportation operator(s) to cooperate in preparing a list of projects for which Federal funds were obligated for spending during the immediately preceding year. This cooperation is essential because of the different responsibilities held by the organizations in planning, programming, and project implementation. This annual report of projects for which an obligation of funds took place is a cooperative effort detailing funds set aside for specific projects.

This annual listing of federally obligated projects has been organized in response to the SAFETEA-LU requirements. This report lists all transportation projects in FMATS that were obligated in the federal fiscal year (FFY) 2011 (October 1, 2010 – September 30, 2011).

## BACKGROUND

The Fairbanks Metropolitan Area Transportation System (FMATS) is the regional transportation planning agency for the Fairbanks Area Metropolitan Planning Organization (MPO). FMATS carries out the transportation planning process in cooperation with the State DOT and transit operators. They cooperatively develop, update and approve the Unified Planning Work Program (UPWP), Long Range Transportation Improvement Plan (LRTP) and the Transportation Improvement Program (TIP).

---

## **SUMMARY OF FFY11 FEDERALLY FUNDED PROJECTS IN FMATS**

This report indicates over \$36.6 million in federal funds were obligated for transportation projects in the region in FFY11. The largest project, in terms of federal funding this year, involved the obligation of the Illinois Street Reconstruction project for construction. The federal investment for this project alone was almost \$27 million. New projects being funded in FFY11 for preliminary engineering include the on-going Preventive Maintenance efforts as well as the final design of a Stage II LED Streetlight conversion project.

After consultation with the transit operator, the Fairbanks North Star Borough, the only federally obligated projects were operating projects as opposed to capital projects. However, the federal investment resulted in the addition of two new bus lines in the Fairbanks area.

## **THE ANNUAL LISTING OF FEDERALLY FUNDED PROJECTS**

This report is organized into two sections: FHWA and FTA Funding. The list includes the project identification number, type of project, federal obligation, total project costs and status of project. The FTA section includes type of funding, project description, federal amount and total project costs.

Obligation is defined as the Federal government's legal commitment to pay the Federal share of a project's cost. An obligated project is one that has been authorized by the federal agency and funds have been obligated. Projects for which funds have been obligated are not necessarily initiated or completed in the program year, and the amount of the obligation will not necessarily equal the total cost of the project. For FTA projects, obligation occurs when the FTA grant is awarded. For FHWA projects, obligation occurs when a project agreement is executed and the State/grantee requests that the funds be obligated.
