State of Alaska Department of Transportation and Public Facilities
Mr. David Miller
2301 Peger Road
Fairbanks, AK 99701

RE: FMATS 2012 – 2015 Transportation Improvement Program Amendment #9

Dear Mr. Miller:

Attached for approval and inclusion in the STIP, required under 23 USC 450.326, is the Fairbanks Metropolitan Area Transportation System (FMATS) 2012 – 2015 Transportation Improvement Program (TIP) Amendment #9. This TIP Amendment was developed in conformance with 23 USC 134 and all applicable federal requirements for Metropolitan Planning Organizations and is fiscally constrained. The FMATS Policy Committee approved this document on June 17, 2015. The TIP was developed in cooperation with the State of Alaska Department of Transportation and Public Facilities and affected transit operators. The air quality agencies agreed with FMATS' determination that a conformity analysis was not required. See attached documentation.

Once the Governor's approval is received, we request that this TIP Amendment be included in the STIP. Your prompt attention to this task would be greatly appreciated by the MPO to facilitate timely obligation of FMATS' funding. Please notify the MPO Coordinator at donna.gardino@fmats.us when transmitting this TIP to DOT & PF Headquarters for inclusion in the STIP. Thank you.

Sincerely,

Donna J. Gardino
MPO Coordinator

CC: Margaret Carpenter, DOT & PF Northern Region Planning

Subject: RE: Interagency Consultation on the Draft FMATS TIP Amendment 9

Donna,

EPA concurs that no conformity analysis is required, per the line in table 2 of [§93.126](#) that indicates “Purchase of new buses and rail cars to replace existing vehicles and for minor expansions of the fleet” is an exempt project. I note that the footnote to Table 2 indicates such a project is exempt only if they are in compliance with control measures in the “applicable implementation plan” for particulate matter. “Applicable implementation plan” is defined in §93.101 of the rule. The EPA has not acted on the submitted PM2.5 SIP for Fairbanks to either find the MVEB adequate or to approve it. Thus, there is no applicable plan for particulate matter.

Please contact me with any questions.

KP

Donna,

FHWA agrees that the new project is an exempt transit project per 93.126 and a conformity analysis is not required.

John

Subject: Interagency Consultation on the Draft FMATS TIP Amendment 9

Hello!

Attached is Draft Amendment #9 to the 2012 – 2015 Fairbanks Metropolitan Area Transportation System (FMATS) Transportation Improvement Program (TIP). It was developed primarily to add a new project, the Bus

and Bus Facility Allocation Project on Page 18. I have verified with the FNSB that they intend to use these funds to replace existing vehicles or for minor expansions of the fleet. The FNSB was unaware of the availability of this funding and now wants to add it to the TIP. Thus, this does not take any funds from existing projects in the SIP. Other changes are administrative in nature and a summary of those changes is also attached. FMATS believes that a Conformity Determination is not required for Amendment No. 9.

Please advise whether you concur with FMATS' determination that a Conformity Analysis is not required for TIP Amendment 9. If no response is received by May 1, 2015, FMATS will assume you agree with this finding. If you would like a meeting to discuss this finding, please let me know. Thank you for your time and consideration.

FMATS 2012 - 2015 FMATS TIP AMENDMENT #9
Final 06.17.15

Purpose of this TIP Amendment #9

This is Amendment #9 to the 2012 – 2015 Fairbanks Metropolitan Area Transportation System (FMATS) Transportation Improvement Program (TIP). It was developed primarily to add a new project, the Bus and Bus Facility Allocation Project on Page 18. Other changes are administrative in nature.

A complete list of changes is available at: www.fmats.us. This draft Amendment #9 was released for public comment at the Policy Committee meeting on April 15, 2015 and approved on June 17, 2015. The TIP continues to be fiscally constrained. FMATS determined that the changes were exempt from a conformity analysis and consulted with the air quality agencies on April 23, 2015. Concurrence was received from EPA and U.S. DOT on April 28, 2015.

This TIP Amendment #9 was developed in conformance with 23 USC 134, 49 USC 5303, 23 CFR Part 450, sections 174 and 176 (c) and (d) of the Clean Air Act as amended (42 USC 7504, 7506 (c) and (d)), 40 CFR Part 93, Title VI of the Civil Rights Act as amended (42 2000d-1) and 49 CFR Part 21, 49 USC 5332, Section 1101(b) of the SAFETEA-LU (Pub. L 109-59 and 49 CFR part 26, 23 CFR part 230, provisions of the Americans with Disabilities Act of 1990 (42 USC 12101 *et seq.*) 49 CFR parts 27, 37, and 38, the Older Americans Act as amended (42 USC 6101), 23 USC 324, Section 504 of the Rehabilitation Act of 1973 (29 USC 794) and 49 CFR 27 and all other applicable federal requirements for Metropolitan Planning Organizations.

FMATS 2012 - 2015 FMATS TIP AMENDMENT #9
Final 06.17.15

2012 – 2015 TIP Surface Transportation Funding Sources

1702 – In SAFETEA-LU section 1702, Congress earmarked funds for over 5,000 projects nationwide. Generally, these funds are not available for other projects; although the funding for some projects may be loaned to other projects within the list. The federal share is 90.97%.

381 – Funds made available in FY07 under SB381. When used as matching funds to federal funds, the code M381 is used. CH82/06/120/18, AR60685

AC (Advance Construction) – An innovative financing tool permitted under FHWA rules that, with approval of the FHWA, allows the state to begin a project using state funds prior to the availability of federal funds. This tool allows the state flexibility to use its resources to more efficiently schedule project start-ups.

ACC (Advance Construction Conversion) – Accounting tool to track the repayment of state funds used to begin a project prior to the availability of federal funds.

BANK or BANK1 - Federal CTP Funds that were banked from previous fiscal years under agreement with ADOT&PF.

GO Bonds – Funds generated by the sale of bonds by the state.

CMAQ (Congestion Mitigation/Air Quality) – These funds are for projects that can be proven to reduce traffic congestion and/or improve air quality in federally designated non-attainment areas. Projects such as park and ride lots, transit bus replacement, vehicle inspection and maintenance program improvements, signal coordination, ride sharing, and paving for dust control qualify for these funds. The federal funds ratio varies and is either 90.97% or 100% depending upon the specific category of work.

DEOB – Federal funding, including the non-federal share, that has been de-obligated from another federal project and is available for use on another project.

FCTP - – Flexible funding that may be used by the state and localities for projects on any Federal-aid highway, including the NHS, bridge projects on any public road, transit capital projects, bus terminals and facilities. Unlike other states, Alaska is allowed to use these funds on any public road in Alaska, regardless of classification. The federal funds ratio varies, typically 93.4% if spent on interstate routes or 90.97% otherwise. This funding code includes the non-federal share.

FED-CTP - – Flexible funding that may be used by the state and localities for projects on any Federal-aid highway, including the NHS, bridge projects on any public road, transit capital projects, bus terminals and facilities. Unlike other states, Alaska is allowed to use these funds on any public road

This report was funded in part through grant(s) from the Federal Highway Administration, U.S. Department of Transportation. FMATS 2012 - 2015 FMATS TIP AMENDMENT #9

Final 06.17.15

in Alaska, regardless of classification. The federal funds ratio varies, typically 93.4% if spent on interstate routes or 90.97% otherwise. This funding code reflects the federal share only.

GF – General fund appropriation available for use on any project.

GF-GC – Funds made available through a state legislative appropriation specifically for Cushman Street and Gaffney Road.

GO-P – Funds generated by the sale of bonds by the state for the Plack Road Bike/Pedestrian Facility Project.

GO-W – Funds generated by the sale of bonds by the state for the Wendell Avenue Bridge project.

ILLU (Illustrative) – Indicates projects that would be funded and advanced if funding becomes available either through receipt of additional funds or because another project cannot be advanced; the specific source or sources of funds will be determined when and if the project is selected to be funded.

NHPP (National Highway Performance Program) – In MAP-21 section 1106, Congress designated the NHPP to provide support for the condition and performance of the National Highway System (NHS), for the construction of new facilities on the NHS, and to ensure that investments of Federal-aid funds in highway construction are directed to support progress toward the achievement of performance targets established in a State's asset management plan for the NHS. This funding code incorporates previous NHS, IM and some BR fund codes. The federal funds ratio is 90.97%.

NP – Funds made available to the FMATS Coordinator's office from the City of North Pole.

PL – These funds are designated for the mandatory planning tasks the department undertakes, including preparation of the Statewide Transportation Plan (SwTP) and State Transportation Improvement Program (STIP), statistical measurements of the transportation system (traffic volumes, pavement condition, accident locations, causes and severity, and physical characteristics of roads and highways), mapping, and management systems. Planning processes and special planning studies are eligible activities within this program. The federal funds ratio is 90.97%.

SB46 – A FY12 state fund appropriation of \$5 million available to any project in the FMATS TIP. When used as matching funds to federal funds, the code M46 is used. CH5/11/100/8, AR65818.

SB160 – A FY13 state fund appropriation of \$7.5 million available to any project in the FMATS TIP. When used as matching funds to federal funds, the code M160 is used. CH17/12/132/25, AR58609.

SB230 – A FY11 state fund appropriation of \$5 million available to any project in the FMATS TIP. When used as matching funds to federal funds, the code M230 is used. CH43/10/36/24, AR65439

This report was funded in part through grant(s) from the Federal Highway Administration, U.S. Department of Transportation. The views and opinions of the Fairbanks Metropolitan Area Transportation System expressed herein do not necessarily state or reflect those of the U.S. Department of Transportation.

FMATS 2012 - 2015 FMATS TIP AMENDMENT #9

Final 06.17.15

SM (State Match) – The State’s share of project costs required to match federal program funds. Depending on the particular federal program requirements, the state’s share of the costs, the state match required, will vary from as little as zero percent to as much as 50%. Most often the state’s share will range from 9.03% to 20%.

STP (Surface Transportation Program) – Flexible funding that may be used by the state and localities for projects on any Federal-aid highway, including the NHS, bridge projects on any public road, transit capital projects, bus terminals and facilities. Unlike other states, Alaska is allowed to use these funds on any public road in Alaska, regardless of classification. The federal funds ratio varies, typically 93.4% if spent on interstate routes or 90.97% otherwise.

TA (Transportation Alternatives) – The Moving Ahead for Progress in the 21st Century Act (MAP-21) replaced the Transportation Enhancement (TE) Activities with the Transportation Alternatives Program (TA), a new program, with funding derived from the NHPP, STP, HSIP, CMAQ and Metropolitan Planning programs, encompassing most activities funded under the Transportation Enhancements, Recreational Trails, and Safe Routes to School programs under SAFETEA-LU. The federal funds ratio is 90.97%.

SM – (State Match) – The State’s share of project costs required to match federal program funds. Depending on the particular federal program requirements, the state’s share of the costs, the state match required, will vary from as little as zero percent to as much as 50%. Most often the state’s share will range from 9.03% to 20%.

SFGL - (State Funds – Gasline) – State funds for gas line projects

UAF – Funds available through the University of Alaska.

URPL (Metropolitan Planning) – In Alaska, these funds can be used in any urban area within the state. Planning processes and special planning studies are eligible activities within this program. The federal funds ratio is 90.97%.

Transit and Rail Fund Codes

5307RR - FTA (Alaska Railroad Passenger Operations) – A portion of Section 5307 funds, Capital and Operating Funds for Urbanized Areas specifically set aside for the Alaska Railroad for costs related to passenger operations.

5309 - FTA (Capital Program) – This program provides capital assistance for three primary activities:

- **(5309BU)** New and replacement buses and facilities
- **(5309FG)** Modernization of existing rail and ferry systems
- **(5309NS)** (New Starts) New fixed-guideway systems (including ferry systems)

This report was funded in part through grant(s) from the Federal Highway Administration, U.S. Department of Transportation. The views and opinions of the Fairbanks Metropolitan Area Transportation System expressed herein do not necessarily state or reflect those of the U.S. Department of Transportation.

FMATS 2012 - 2015 FMATS TIP AMENDMENT #9

Final 06.17.15

Congress usually fully earmarks all available funding. In SAFETEA-LU Congress set aside a portion of the New Start funds for capital improvements on Alaska and Hawaii ferry systems (the two states split the set-aside). Congress also set aside a portion of the Capital Program New Starts funds for the Denali Commission for docks, waterfront development projects, and related transportation infrastructure. On occasion, a recipient agency will apply for section 5309 funds on behalf of transit agencies throughout the state and ask DOT&PF to administer these funds. When this happens, the funds are distributed through the annual Alaska Community Transportation Grant application process. The federal funds ratio is 80%.

5310 - FTA (Elderly and Persons with Disabilities Program) – This program funds transportation services to meet the special needs of the elderly and persons with disabilities. Funds are apportioned to the states based on the number of elderly and persons with disabilities in each state. Grants are available to nonprofit organizations (and sometimes governmental entities approved by the state) for the purchase of vehicles, related equipment, and the purchase of rides. SAFETEA-LU listed Alaska as one of a select group of states to participate in a pilot program that would allow a portion of these funds to be used to cover operating costs (at a 43.14% match) of projects that meet the special needs of elderly individuals and individuals with disabilities. The federal funds ratio for the remainder of these funds is 90.97%.

5311 (Non-urbanized Area Formula Program) – This program provides funding to enhance public transportation in rural and small urban areas. It also assists in the maintenance, development, improvement, and use of public transportation systems. A component of this program is the Rural Transit Assistance Program (RTAP), which provides training and technical assistance to transit operators. The federal funds ratio is 90.97% for capital projects and project administration, and up to 56.86% for operating assistance. RTAP projects are 100% federally funded.

5337GR (Section 5337 State of Good Repair) – A new formula-based State of Good Repair program is FTA's first stand-alone initiative written into law that is dedicated to repairing and upgrading the nation's rail transit systems along with high-intensity motor bus systems that use high-occupancy vehicle lanes, including bus rapid transit (BRT). These funds reflect a commitment to ensuring that public transit operates safely, efficiently, reliably, and sustainably so that communities can offer balanced transportation choices that help to improve mobility, reduce congestion, and encourage economic development.

5339 – (Bus and Bus Facilities) – Funding for capital expenses for eligible rural public transit systems.

This report was funded in part through grant(s) from the Federal Highway Administration, U.S. Department of Transportation. The views and opinions of the Fairbanks Metropolitan Area Transportation System expressed herein do not necessarily state or reflect those of the U.S. Department of Transportation.
