RE: FMATS 2012 – 2015 Transportation Improvement Program Administrative Modification #2

Dear Mr. Titus:

Attached for approval and inclusion in the STIP, required under 23 USC 450.326, is the Fairbanks Metropolitan Area Transportation System (FMATS) 2012 – 2015 Transportation Improvement Program (TIP) Administrative Modification #2. This modification was developed in conformance with 23 USC 134 and all applicable federal requirements for Metropolitan Planning Organizations and is fiscally constrained. The FMATS Policy Committee approved this document on February 16, 2012. See attached action items documenting this approval. The TIP was developed in cooperation with the State of Alaska Department of Transportation and Public Facilities and affected transit operators. Conformity determinations are not required for Administrative Modifications per 23 CFR 450.104.

Once the Governor's approval is received, we request that TIP Administrative Modification #2 be included in the STIP, required under 23 U.S.C.135. Your prompt attention to this task would be greatly appreciated by the MPO to facilitate timely obligation of FMATS' funding. Please notify the MPO Coordinator at djgardino@ci.fairbanks.ak.us when transmitting this TIP to DOT & PF Headquarters for inclusion in the STIP. Thank you.

Sincerely,

Donna J. Gardino
MPO Coordinator

FMATS 2012 - 2015 FMATS TIP ADMINISTRATIVE MODIFICATION #2 - APPROVED

February 16, 2012

Purpose of this TIP Administrative Modification

This is Administrative Modification #2 to the 2012 – 2015 Fairbanks Metropolitan Transportation System (FMATS) Transportation Improvement Program (TIP). It was developed primarily to address changes in project development schedules, and to include additional funding for FMATS identified in the new Statewide Transportation Improvement Program released on February 9, 2012.

FMATS was advised that College Road Rehabilitation and Noble Street Upgrades' construction schedules were slipping by one year to FFY13 and FFY14, respectively. The final design phase for the Wendell Avenue Bridge project also slipped one year to FFY13. In addition, the DOT & PF advised FMATS in late December that the FFY13 CTP allocation was to be \$2.5 million higher than FMATS had programmed in the TIP for that year. FMATS was able to accelerate the right-of-way phase of the Plack Road Bicycle and Pedestrian Facility project with this available funding.

As a result, FMATS has significant funding available in FFY12 and FFY13 and the DOT & PF is willing to bank that money for FMATS for the Noble Street Upgrade project, in FFY14/FFY15. This Administrative Modification does not illustrate the banking but shows that while Noble Street can be funded in FFY14, several other projects are now not funded in FFY14 such as: Preventive Maintenance, FMATS Pedestrian Improvements Stage I, Minnie Street Reconstruction and an additional advance construction is required to bring University Avenue to construction. South Cushman from 15th to Mitchell construction is now delayed to the out-years as a result.

The draft Administrative Modification was presented to the Technical Committee on February 1, 2012 and to the Policy Committee on February 16, 2012, where it was approved. The TIP continues to be fiscally constrained. A public comment period is not required for administrative modifications. A conformity determination is not required per 23 CFR 450.104.

This Administrative Modification was developed in conformance with 23 USC 134, 49 USC 5303, 23 CFR Part 450, sections 174 and 176 (c) and (d) of the Clean Air Act as amended (42 USC 7504, 7506 (c) and (d)), 40 CFR Part 93, 49 USC 5332, Section 1101(b) of the SAFETEA-LU (Pub. L 109-59 and 49 CFR part 26, 23 CFR part 230, provisions of the Americans with Disabilities Act of 1990 (42 USC 12101 *et seq.*), 49 CFR parts 27, 37, and 38, the Older Americans Act as amended (42 USC 6101), 23 USC 324, Section 504 of the Rehabilitation Act of 1973 (29 USC 794) and all other applicable federal requirements for Metropolitan Planning Organizations.

This report was funded in part through grant(s) from the Federal Highway Administration, U.S. Department of Transportation. The views and opinions of the Fairbanks Metropolitan Area Transportation System expressed herein do not necessarily state or reflect those of the U.S. Department of Transportation.

CMAQ Projects											
26161			Fairbanks Air Quality Planning Project	CMAQ	FMATS	all	100.0	100.0	100.0	100.0	
			The goal of this project is to update the local transportation model and EPA mobile source emission model. Fairbanks is a newly designated PM2.5 non-attainment area and also a CO Maintenance area. An up to date transportation model and EPA mobile source emission model are needed for on-going transportation and air quality planning activities in the community. This project will provide funding to conduct federally mandated Air Quality Conformity Analysis for all long range and short term planning documentation.

		Fairbanks	Fairbanks Rail Realignment		2				
			The Alaska Railroad Corporation (ARRC) proposes to optimize the alignment of mainline and branch track within the Fairbanks Area to improve safety, customer response, and minimize transportation conflicts with the adjacent communities. A Memorandum of Understanding between the Fairbanks North Star Borough and ARRC is the guiding policy for implementing this project. (PL108-199, Div. F, Title I, Sec. 115).		2

Need ID	AKSAS	Area	Project Description	Section	Phase	FFY12	FFY13	FFY14	FFY15
19217		Fairbanks	Joint Tanana Range Access	GF	4	40,000.0			
			The Alaska Railroad Corporation (ARRC) in cooperation with the U.S. Military proposes to construct a crossing of the Tanana River to provide year-round access to the military training areas known as the Tanana Flats Training Area (TFTA) and the Donnelly Training Area (DTA). The project will be constructed as the first part of the Northern Rail Extension (NRE), a project which will extend the Alaska Railroad from Moose Creek to Delta Junction. The Surface Transportation Board (STB) is the lead federal agency for the NRE.	GF (DOD)	4	10,000.0	44,000.0 60,000.0	46,000.0

22401	63513	Fairbanks	Goldstream Road Rehabilitation	STP/SM	7	12.0			
			Rehabilitate Goldstream Road to accommodate increased truck traffic associated with the construction of a natural gas pipeline. This route is considered an alternate bypass around the Fairbanks core area.	BR/SM/STP	4		17,160.0		
			Project Total			12.0	17,160.0		
9947	62166	Fairbanks	Nordale Road Pavement Rehabilitation	STP/SM	4	5,000.0			
			Rehabilitate 3.3 miles of roadway pavement from the Little Chena River Bridge to Chena Hot Springs Road. Work will include repaving and drainage improvements.						
			Project Total			5,000.0			
26082	61067	Fairbanks	Old Steese to McGrath Connector	PSF	9		2,242.5	12,707.5	
			Construct a new road segment and a separated bike/pedestrian path from the intersection of the Johansen Expressway and the Old Steese Highway to the intersection of McGrath Road and Farmers Loop, approximately two miles.	STP/SM			350.0		
			Project Total			0.0	2,592.5	12,707.5	0.0
18923	60762	Fairbanks	University Avenue Preventive Maintenance	NHS/SM	4	2,414.4			
			Repair the existing asphalt on University Avenue from the Mitchell Expressway to the railroad crossing at MP 4.834 (old University School).						
			Project Total			2,414.4	0.0

24756		Fairbanks	Fairbanks Fine Particulate Matter Planning and Control						
			A portion of the FNSB has been designated as a non-attainment area for fine particulate matter (PM 2.5). The goal of this project is two-fold: to develop relevant technical information for the Fairbanks area PM 2.5 attainment plan with a goal of determining the relative impact of transportation sources and to design and implement effective control programs to mitigate PM 2.5 concentrations in the community.		CMAQ	4,500.0	3,100.0	1,200.0	1,200.0
Project Total						4,500.0	3,100.0	1,200.0	1,200.0
26161		Fairbanks	Fairbanks Air Quality Planning Project						
			The goal of this project is to update the local transportation model and EPA mobile source emissions model. Fairbanks is a newly designated pm2.5 non-attainment area and also a CO Maintenance area. An up to date transportation model and EPA mobile source emission model are needed for on-going transportation and air quality planning activities in the community. This project will provide funding to conduct federally mandated Air Quality Conformity Analysis for all long and short term planning documentation.		CMAQ	100.0	100.0	80.0	80.0
Project Total						100.0	100.0	80.0	80.0
<i>The above projects are in the approved 2012 - 2015 STIP. The following projects are sub-allocations from this project and are exempt from conformity analysis. They are shown here for informational purposes only.</i>
