

Green Streets Nominations

Nomination Campaign

Green Streets

June 3 - June 18 • 2017

Name	Email	Green Streets Nominated and Why
Jenna Jonas	jenna.e.jonas@gmail.com	Phillips Field Road- because its right along the Chena and really scary to bike along.
Jackson Fox	jfox@fairbanks.us	Barnette Street (1st Ave to Airport Way) - this is a downtown street that needs beautification, and has a wide right-of-way where all the travel lanes and on-street parking are not necessary (i.e. space could reconfigured down to two travel lanes with ample space for green infrastructure and a bike line). This road is also in the queue to get reconstructed in a few years so the timing is good to work these features into the project.
Jackson Fox	jfox@fairbanks.us	5th Avenue (Lacey to Barnette St) - 5th Avenue is in the downtown core and crosses Cushman Street which just received green infrastructure treatments, as well as has a driveway to the bus transit center which just green infrastructure treatments. It also runs along Sadlers parking lot which has severe water quality and quantity issues with stormwater runoff. 5th Avenue has a wide right-of-way with two travels lanes and on street parking and one lane could potentially be eliminated for room for green infrastructure. The City will be nominating the road for FMATS funding to reconstruct in the near future so the timeline for improvements would work well too.
Bryn McElroy	Bryn.McElroy@gmail.com	End of freeman road floods every year
Jewelz Barker	jewelzalaska@gmail.com	813 5th Avenue Storm water doesn't drain
Jackson Fox	jfox@fairbanks.us	Airport Way - Airport Way is the main thoroughfare through Fairbanks and has been deemed the "ugliest street in Fairbanks" with the chain link fences and concrete jersey barriers. It also has severe storm water issues and business access issues and other functional issues. This street could use an overhaul/face lift to beautify the street and resolve the storm water issues in one concerted effort.
William Ha'o	wkhaojr@gmail.com	Airport Way. It needs beautification beyond the existing meager amount of foliage. The main artery for numerous local commuters, for visitors to Fairbanks from the airport to their hotel, and for out of town motorists from the Richardson Hwy. or from the Parks Hwy. it would benefit from a more prominent and improved visual presentation of greenery.
tammi ganguli	tammiganguli@gmail.com	Chena Pump Transfer Site. The Borough planning division wants to expand the site and will eliminate around 75% of the vegetation which will definitely make it an eyesore and impact the Cripple Creek Drain that has salmon in it, because the riparian buffer will be reduced to 30 ft. The new RAP pad will be sloped towards Chena Pump road, which will allow all the runoff to hit the ditch and flui into the creek at the southern end of the lot and the Chena. Using FMATS green infrastructure best practices would not only protect the environment but would also help the salmon and the surrounding homeowners. Several properties will have a hard time reselling as they currently have a view of the site with thw vegetative biffer in place as it is now. Anything that could be done to keep the plans attractive and safe for the salmon and the streams would be appreciated.
Sherri Roach	sroach65@gmail.com	Geist Road - Flooding
Christy Everett	christyeverett.pesronal@gmail.com	5th Avenue (North Pole) - Flooding and runoff into Beaver Springs Slough
Christy Everett	christyeverett.pesronal@gmail.com	Safeway/Mall Parking lot(North Pole) - Flooding and runoff into Beaver Springs Slough
Christy Everett	christyeverett.pesronal@gmail.com	Sourdough/Beavebrook Mall (North Pole) - Flooding and runoff into Beaver Springs Slough
Eddie Barbour	seams2crazy@gmail.com	Funk Road - Drainage and permafrost issues
Belinda Travers	online@alaska.com	Phillips Field Road - Flooding and beautification
Melissa Kreller	makreller@gmail.com	Nordale Road (near Subdivision) - flooding near CHS
Melissa Kreller	makreller@gmail.com	Road towards Chena Pump Rd - flooding
Caren Wolfson	nvcaren@aol.com	Bentley Trust @Helmricks Arena
P Cass	mrpatrickcass@hotmail.com	Fairbanks Street - overgrown ditches
P Cass	mrpatrickcass@hotmail.com	Birch Lane - overgrown ditches, pollution
Dixie Dayo	dixiedayo@gci.net	Jennie Lane at Deadman Slough - pollution

Dixie Dayo	dixiedayo@gci.net	Geist Rd to Chena River - pollution
Chelsy Nusunginga	rhetorical.dragon@yahoo.com	West Coules Strett - flooding
Al Kottwitz	gaou46@gmail.com	Chena Point - Flooding, pitted and filled with ponds
Brian Charlton	BCharlton@fnbs.us	walking (in the ditches) between the businesses and down the road to the river, the Tanana Chief, and River's Edge restaurant. Both Pike's establishments and Princess seem to have drainage systems that feed directly to the river.
Sue Sprinkle	suesprinkle@alaska.net	6th Avenue from Hall St to Nobel St. It often has standing water, broken pavement, no sidewalks, and is used a passthrough from Wendell to Noble Sts.
David Hayden	dhayden@L64design.com	on the east by the steese highway, the north by 2nd avenue, the west by noble and the south by 9th ave. This neighborhood has an incomplete storm drainage system, there is standing water during rain in the summer months and standing water during breakup. This neighborhood also lacks a complete sidewalk system. Maybe instead of widening the narrow streets a new hybrid sidewalk street combination can be employed. There would be no grade change between the sidewalk and street. This would facilitate two cars passing each other but also define a pedestrian zone. The pedestrian zone would be defined by a concrete finish that would be pleasant to walk on and yet make tires from cars noisy. Cars would not be allowed to park on this and below maybe serve as a surface water retention drywell. Driveways would be allowed on the pedestrian area but can only be a third of the lot frontage. Also the street lighting could be redone to be on a motion sensor device to save money and only light streets that have activity on them. It would also help address light pollution.
Autumn McVeigh	fallingurrl@yahoo.com	Peridot Road - Potholes and standing water
Bryan Hailey	bhailey0001@gmail.com	Freeman Road and Carl Crossman Way - Culvert floods, making it impassable.
Jennifer Larkin	jnicsak@gmail.com	University Ave- Spots where the water sits in puddles
Travis Cole	travis.cole@tananachiefs.org	2nd Ave
Cynthia Serva	cserva@live.com	Singa Street (North Pole) at the cross roads
Koya Truax	kstruax@yahoo.com	Chena Hot Springs Road
Katrina Martolano	martolanao@ak.net	Airport Way
Matt Hutter	wakeboard_dude777@hotmail.com	Trinidad at Stanford Drive - flooding
Ian Campbell	chawbruh@alaska.edu	Fun time Park on College Road
Ian Campbell	chawbruh@alaska.edu	Old Train Depot on Illinois St
Diane Preston	dianep@mosquitonet.com	5th ave from Cushman towards the west. Part of the road lacks no sidewalk
Jessica Walker	honeybee3213@gmail.com	Plum Street at Alder Avenue - Flooding (Fort Wainwright)
Sheri Olesen	chartreusefairbanks@gmail.com	First Ave - where it runs along the river
Royce Conlon	royceconlon@pdceng.com	Goldstream Theater parking lot/Airport way frontage road - Large parking lot with no opportunity for biofiltration before entering the storm system.
Elfa Buggiey	elfinhands@gci.net	O'Connell Street - flooding on the slough side of the street
Jana Pierce	janapierce@gmail.com	Lacey St
Alysha Childs	alyscha.childs@hotmail.com	Glasgow - runoff and flooding issues
Pam Miller	pammillerarctic@gmail.com	Airport Way from University to downtown - Beautification of the concrete barriers and chain link fence
Pam Miller	pammillerarctic@gmail.com	Illinois Street - beautification of concrete medians
Donna Gardino	donna.gardino@fmts.us	Turner Street between 2nd and 5th could be vacated for whicle access and turned into a park like pedestrian boulevard. It is poorly maintained and coulprovide drainage from nearby parking areas and be a pleasant place to walk or eat lunch
No name		Illinois Street - flooding during rains or breakup
No name		University Ave at Airport - flooding in street and rock area by Taco Bell, Fred Meyers and the bank.
Bryn McElroy	Bryn.McElroy@gmail.com	Phillips Field Road - erosion along the banks
K Fitzgerald	k2@gci.net	College Rd - pollution going into the Noyes Slough.
CJ	cyruscollier@hotmail.com	Bentley Mall in front of Wells Fargo - flooding around the manhole
Loretta		Illinois Street - storm drain flooding
Syrilyn Tony	stony13@gmail.com	Chena H.S.R
Todd Hallsten	todddhallsten21@gmail.com	Hansen Rd
Doug Crevensten	d.crevensten@gmail.com	10th Ave in front of Tanana Clinic - beautification
Robyne	robyme@alaska.edu	Stanford Drive at Trinidad Streets - flooding
Sheldon Wolfe	alaskanlobo91@gmail.com	Haggle Barger Rd
Ken Jonas	ken_jonas45@hotmail.com	Bonnie Field St at 6th ave - standing water
Brittney Myers	serenity.lynne@yahoo.com	Sandvik St at Stewart st- Beautification
Robert Milam	sparky2263@gmail.com	5th and Cushman - flooding
Louise Starr	astarr3@alaska.edu	1311 20th Ave - standing water
Anna Mouton		Denali Way at Lathrop - standing water
Angelica Yocom	angegonzalez@live.com	Gold Stream Theater Airport Frontage Rd
Tresa Duffield	mothertresas@hotmail.com	Roosevelt at Washington
Alyssa Grabner	agrabner19@gmail.com	End of Freeman Road - flooding
Steffeney Peak	steffeneypeak@yahoo.com	South Cushman
Steffeney Peak	steffeneypeak@yahoo.com	Airport Way
Steffeney Peak	steffeneypeak@yahoo.com	Chena Pump
Jennifer Rynish	jennifer.rynish58@gmail.com	Hamilton St - beautification
Jennifer Rynish	jennifer.rynish58@gmail.com	3rd St in between Hamilton and Old Steese - standing water

* Green Streets Nomination Campaign was funded in part by the United States EPA under assistance agreement BG-00184603 to the Department of Environmental Conservation through the Alaska Clean Water Actions (ACWA) program
